

Score these broad areas of work: One health approach

Score these broad areas of work: Big data

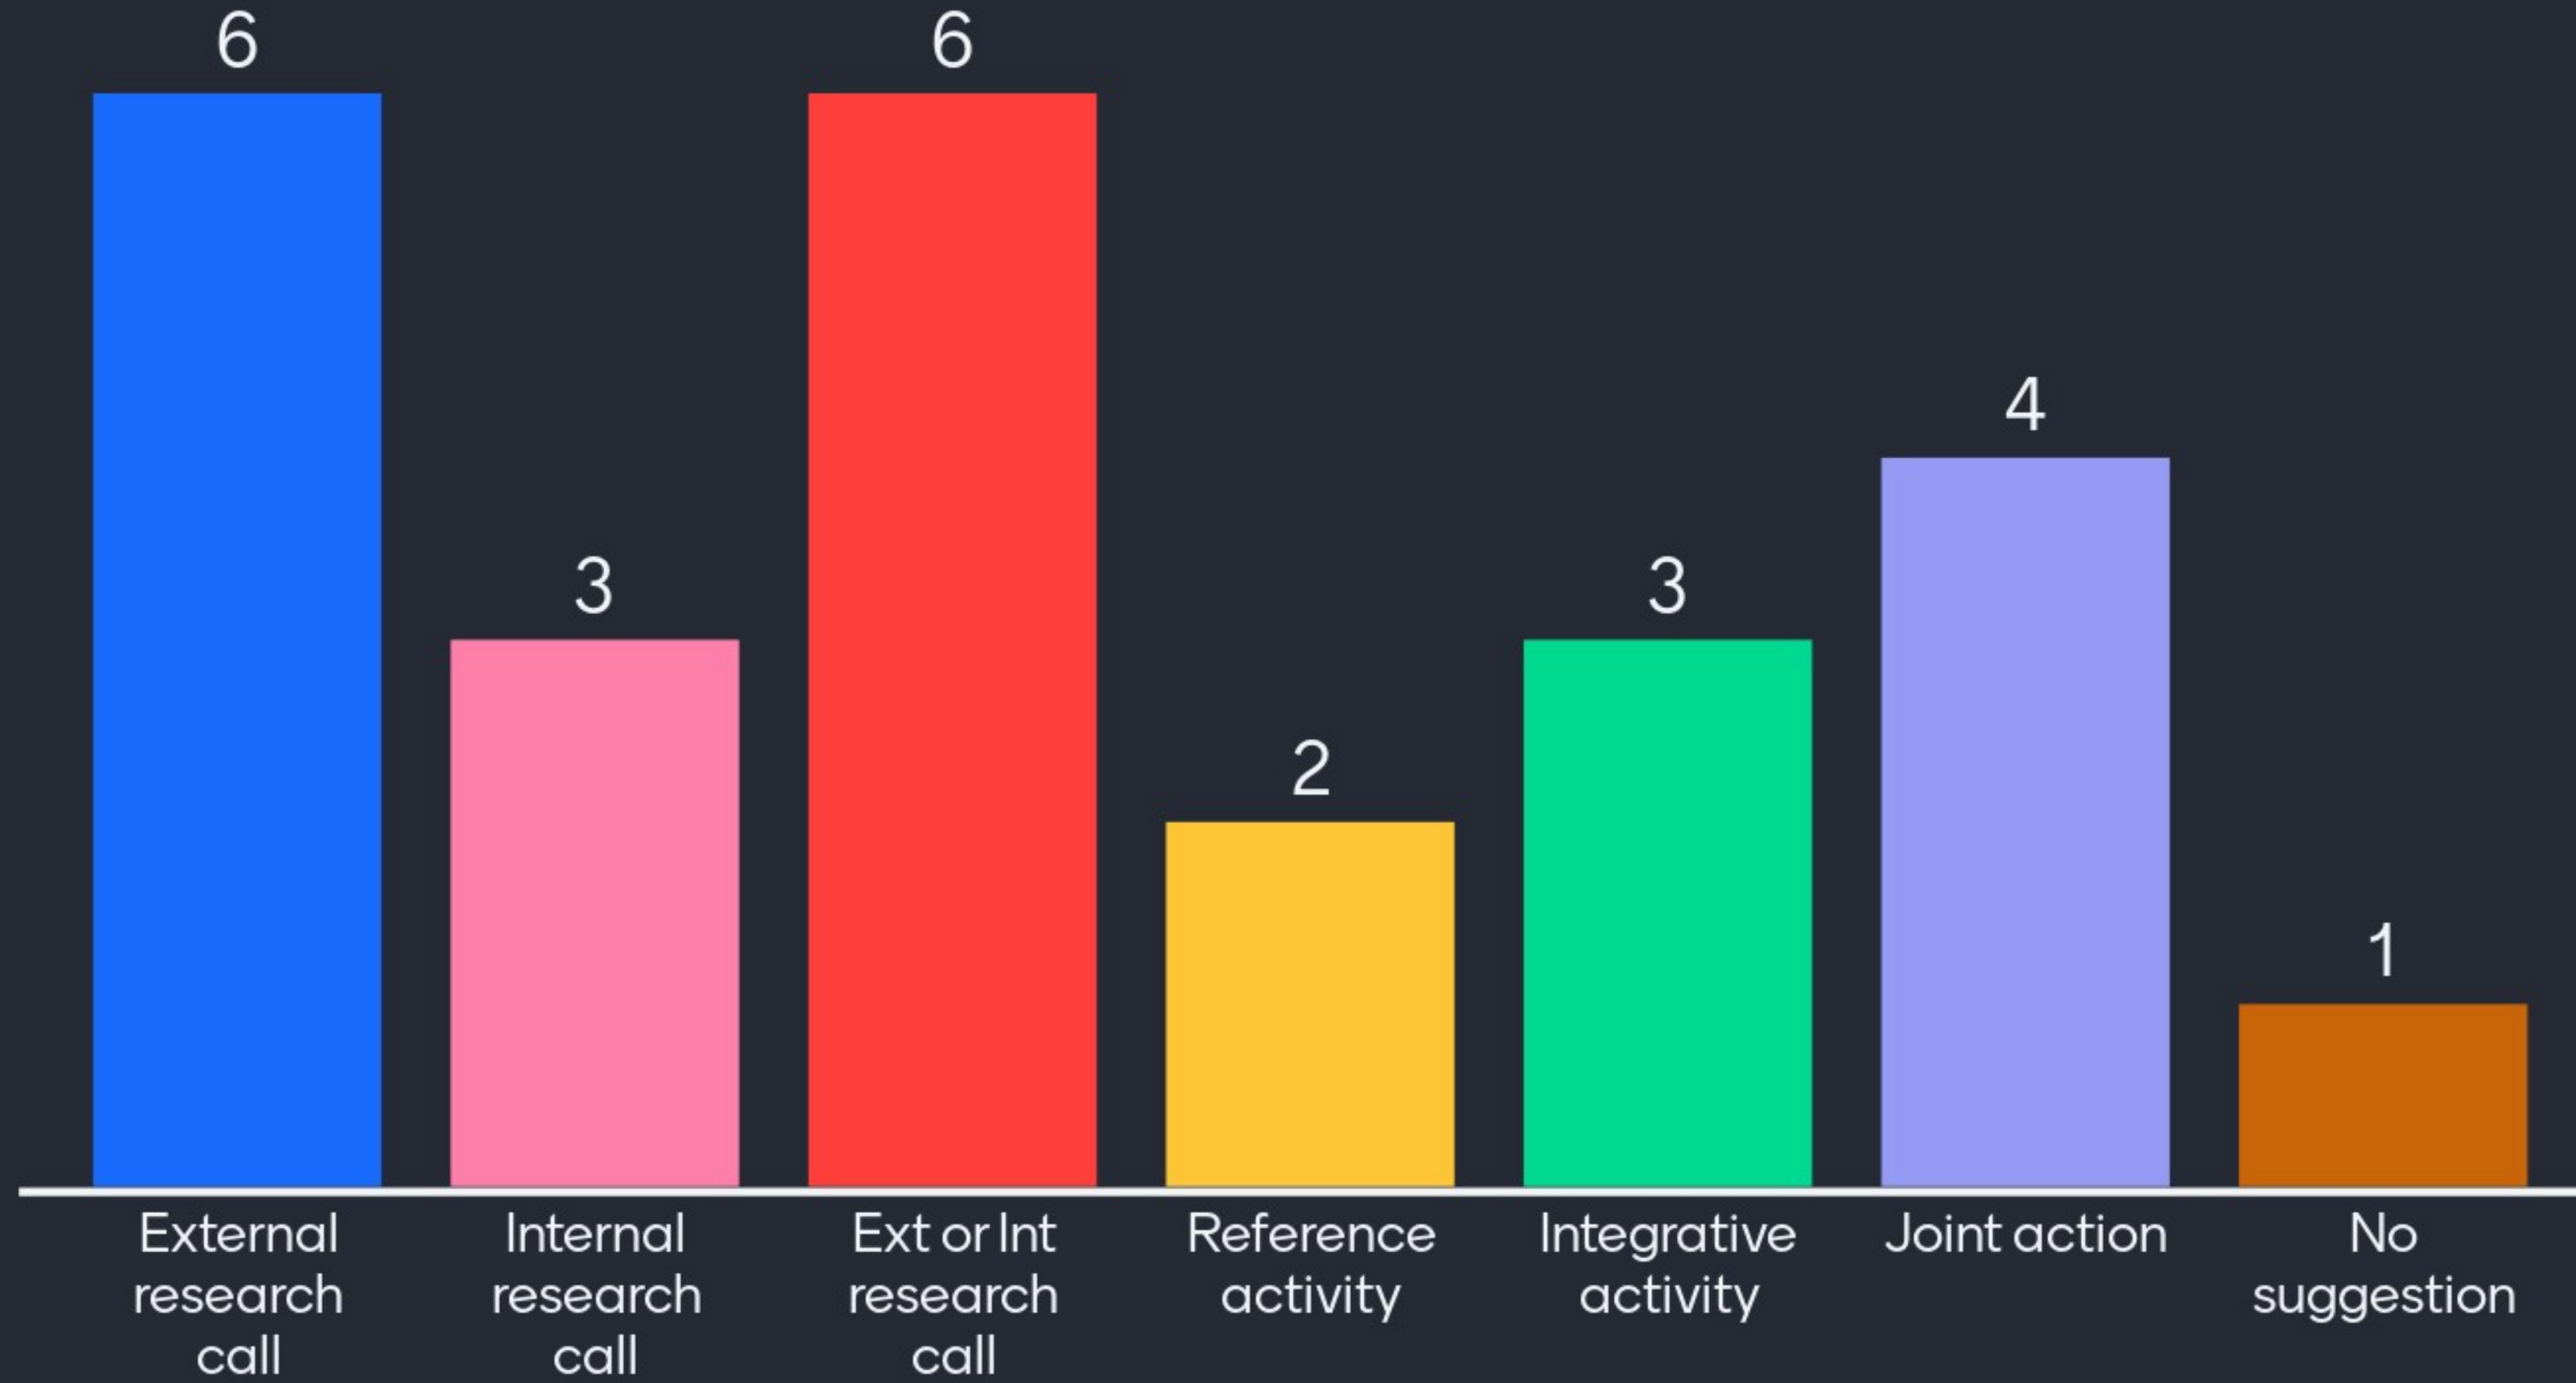

Score these broad areas of work: Social science

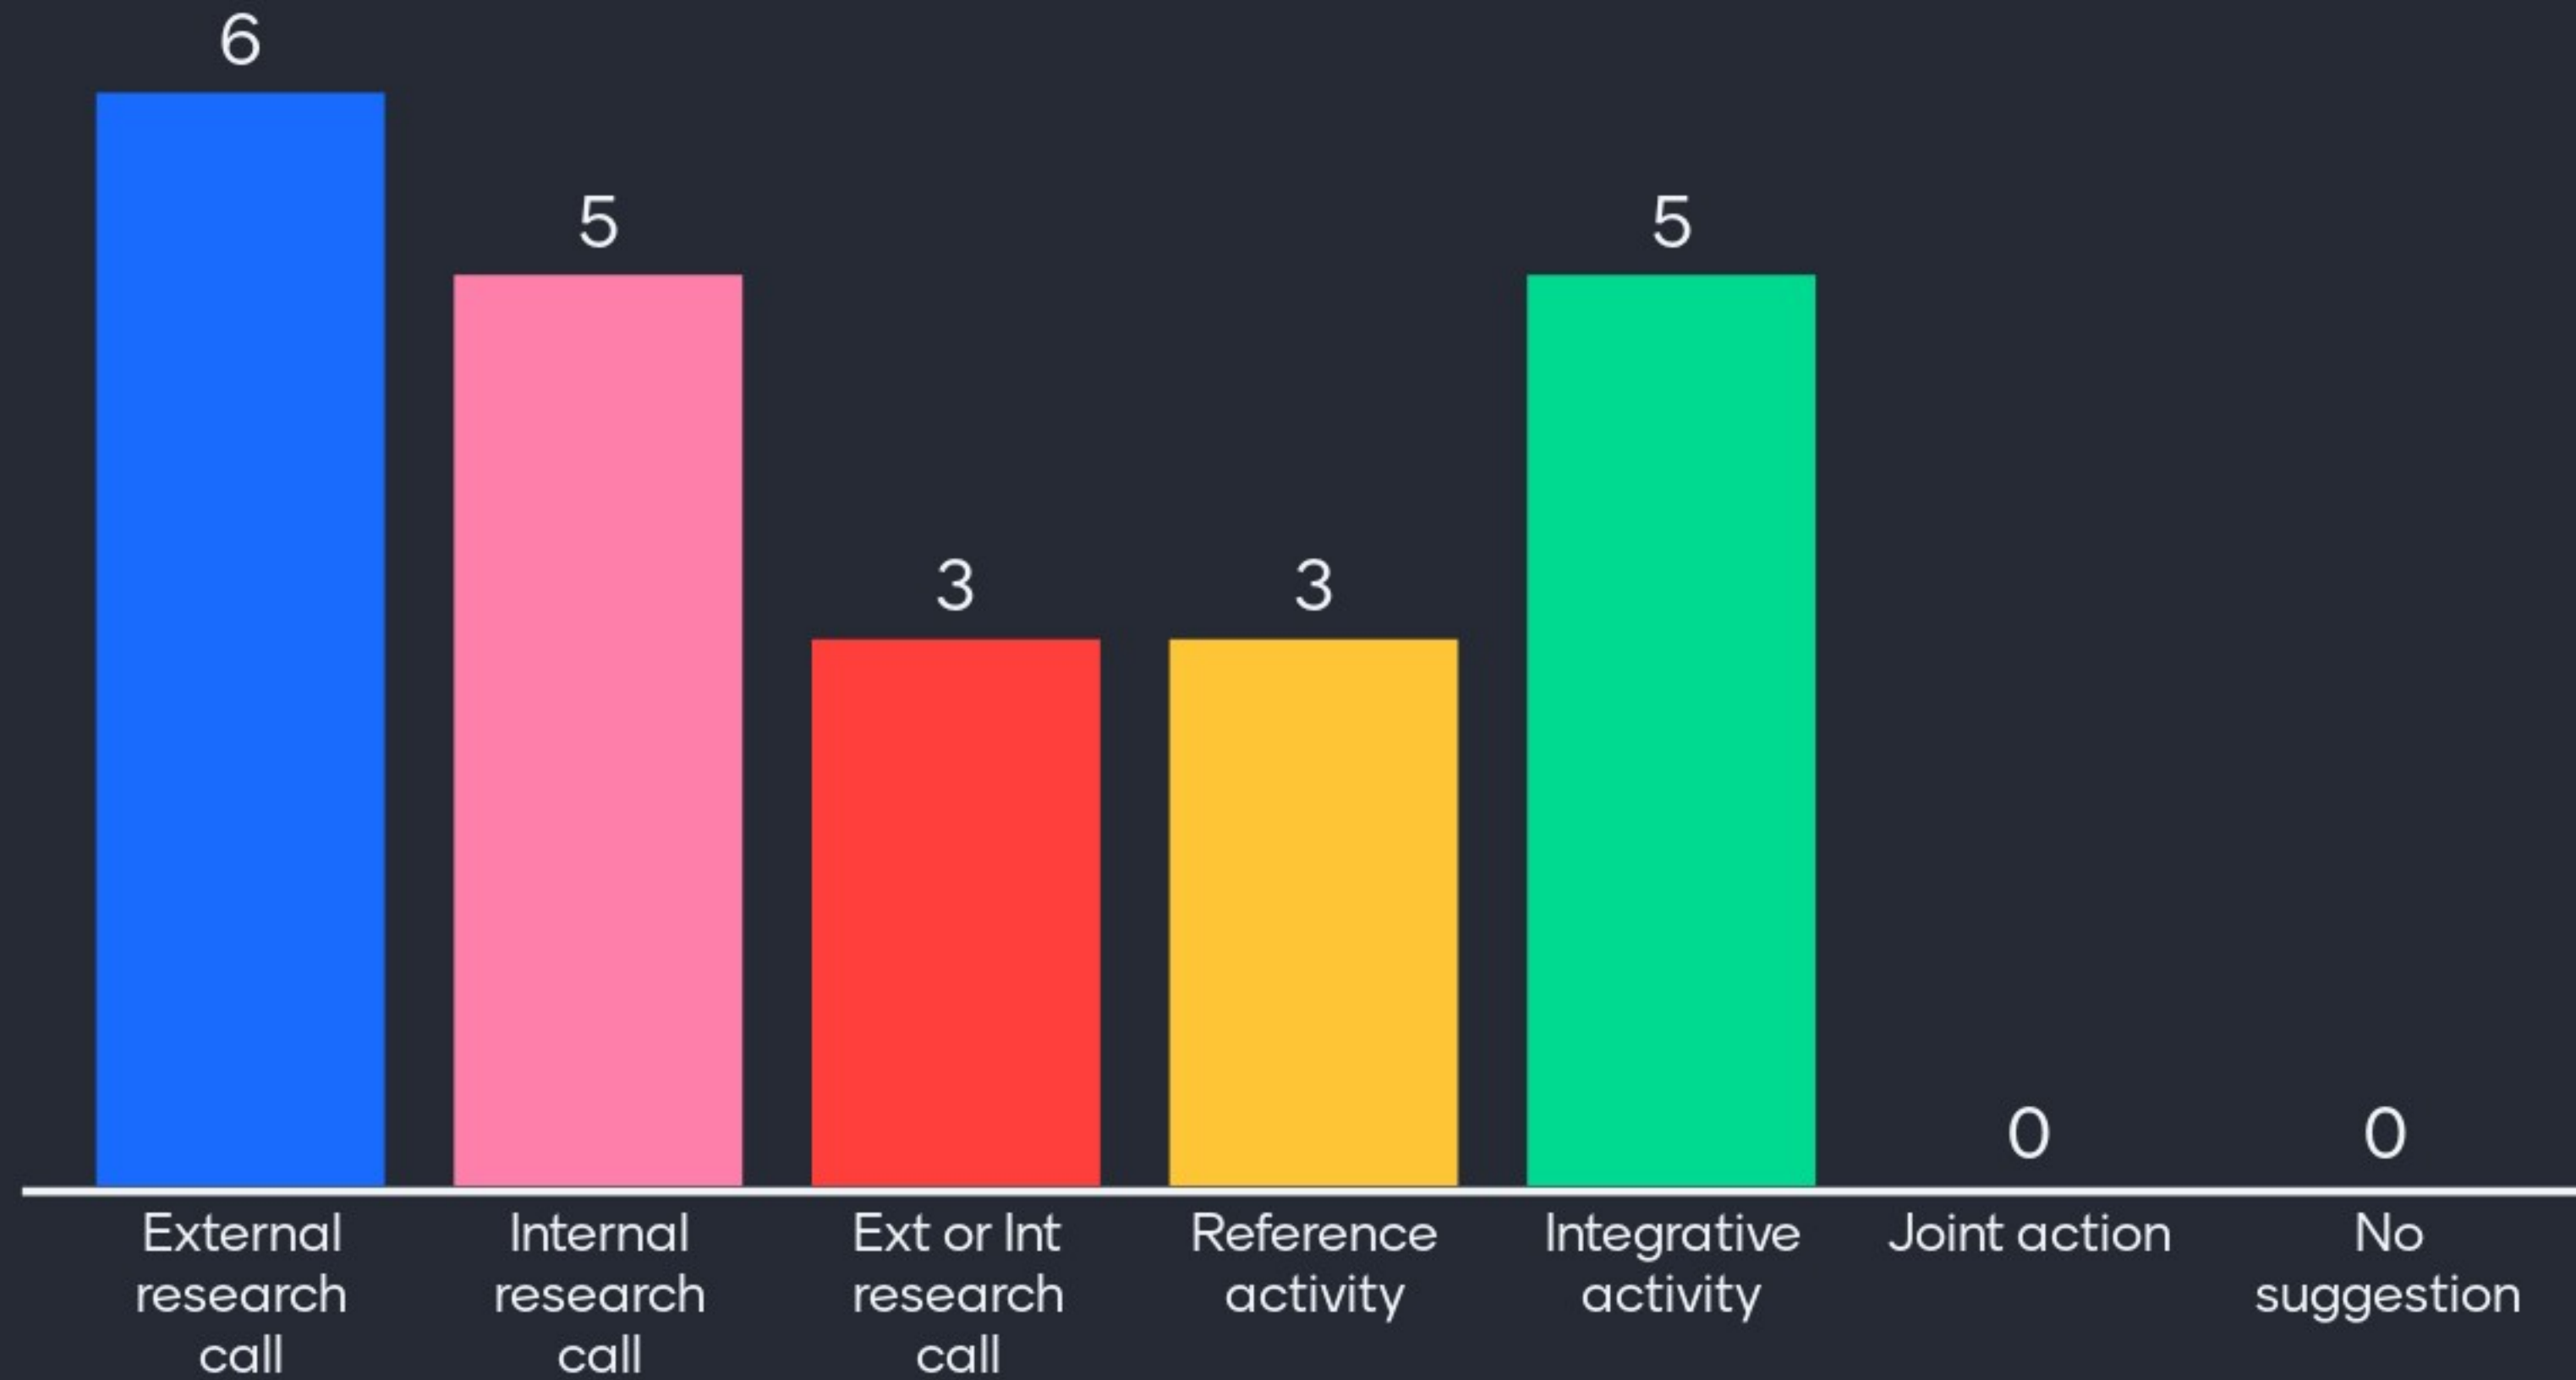

Score these broad areas of work: Bridging health and welfare

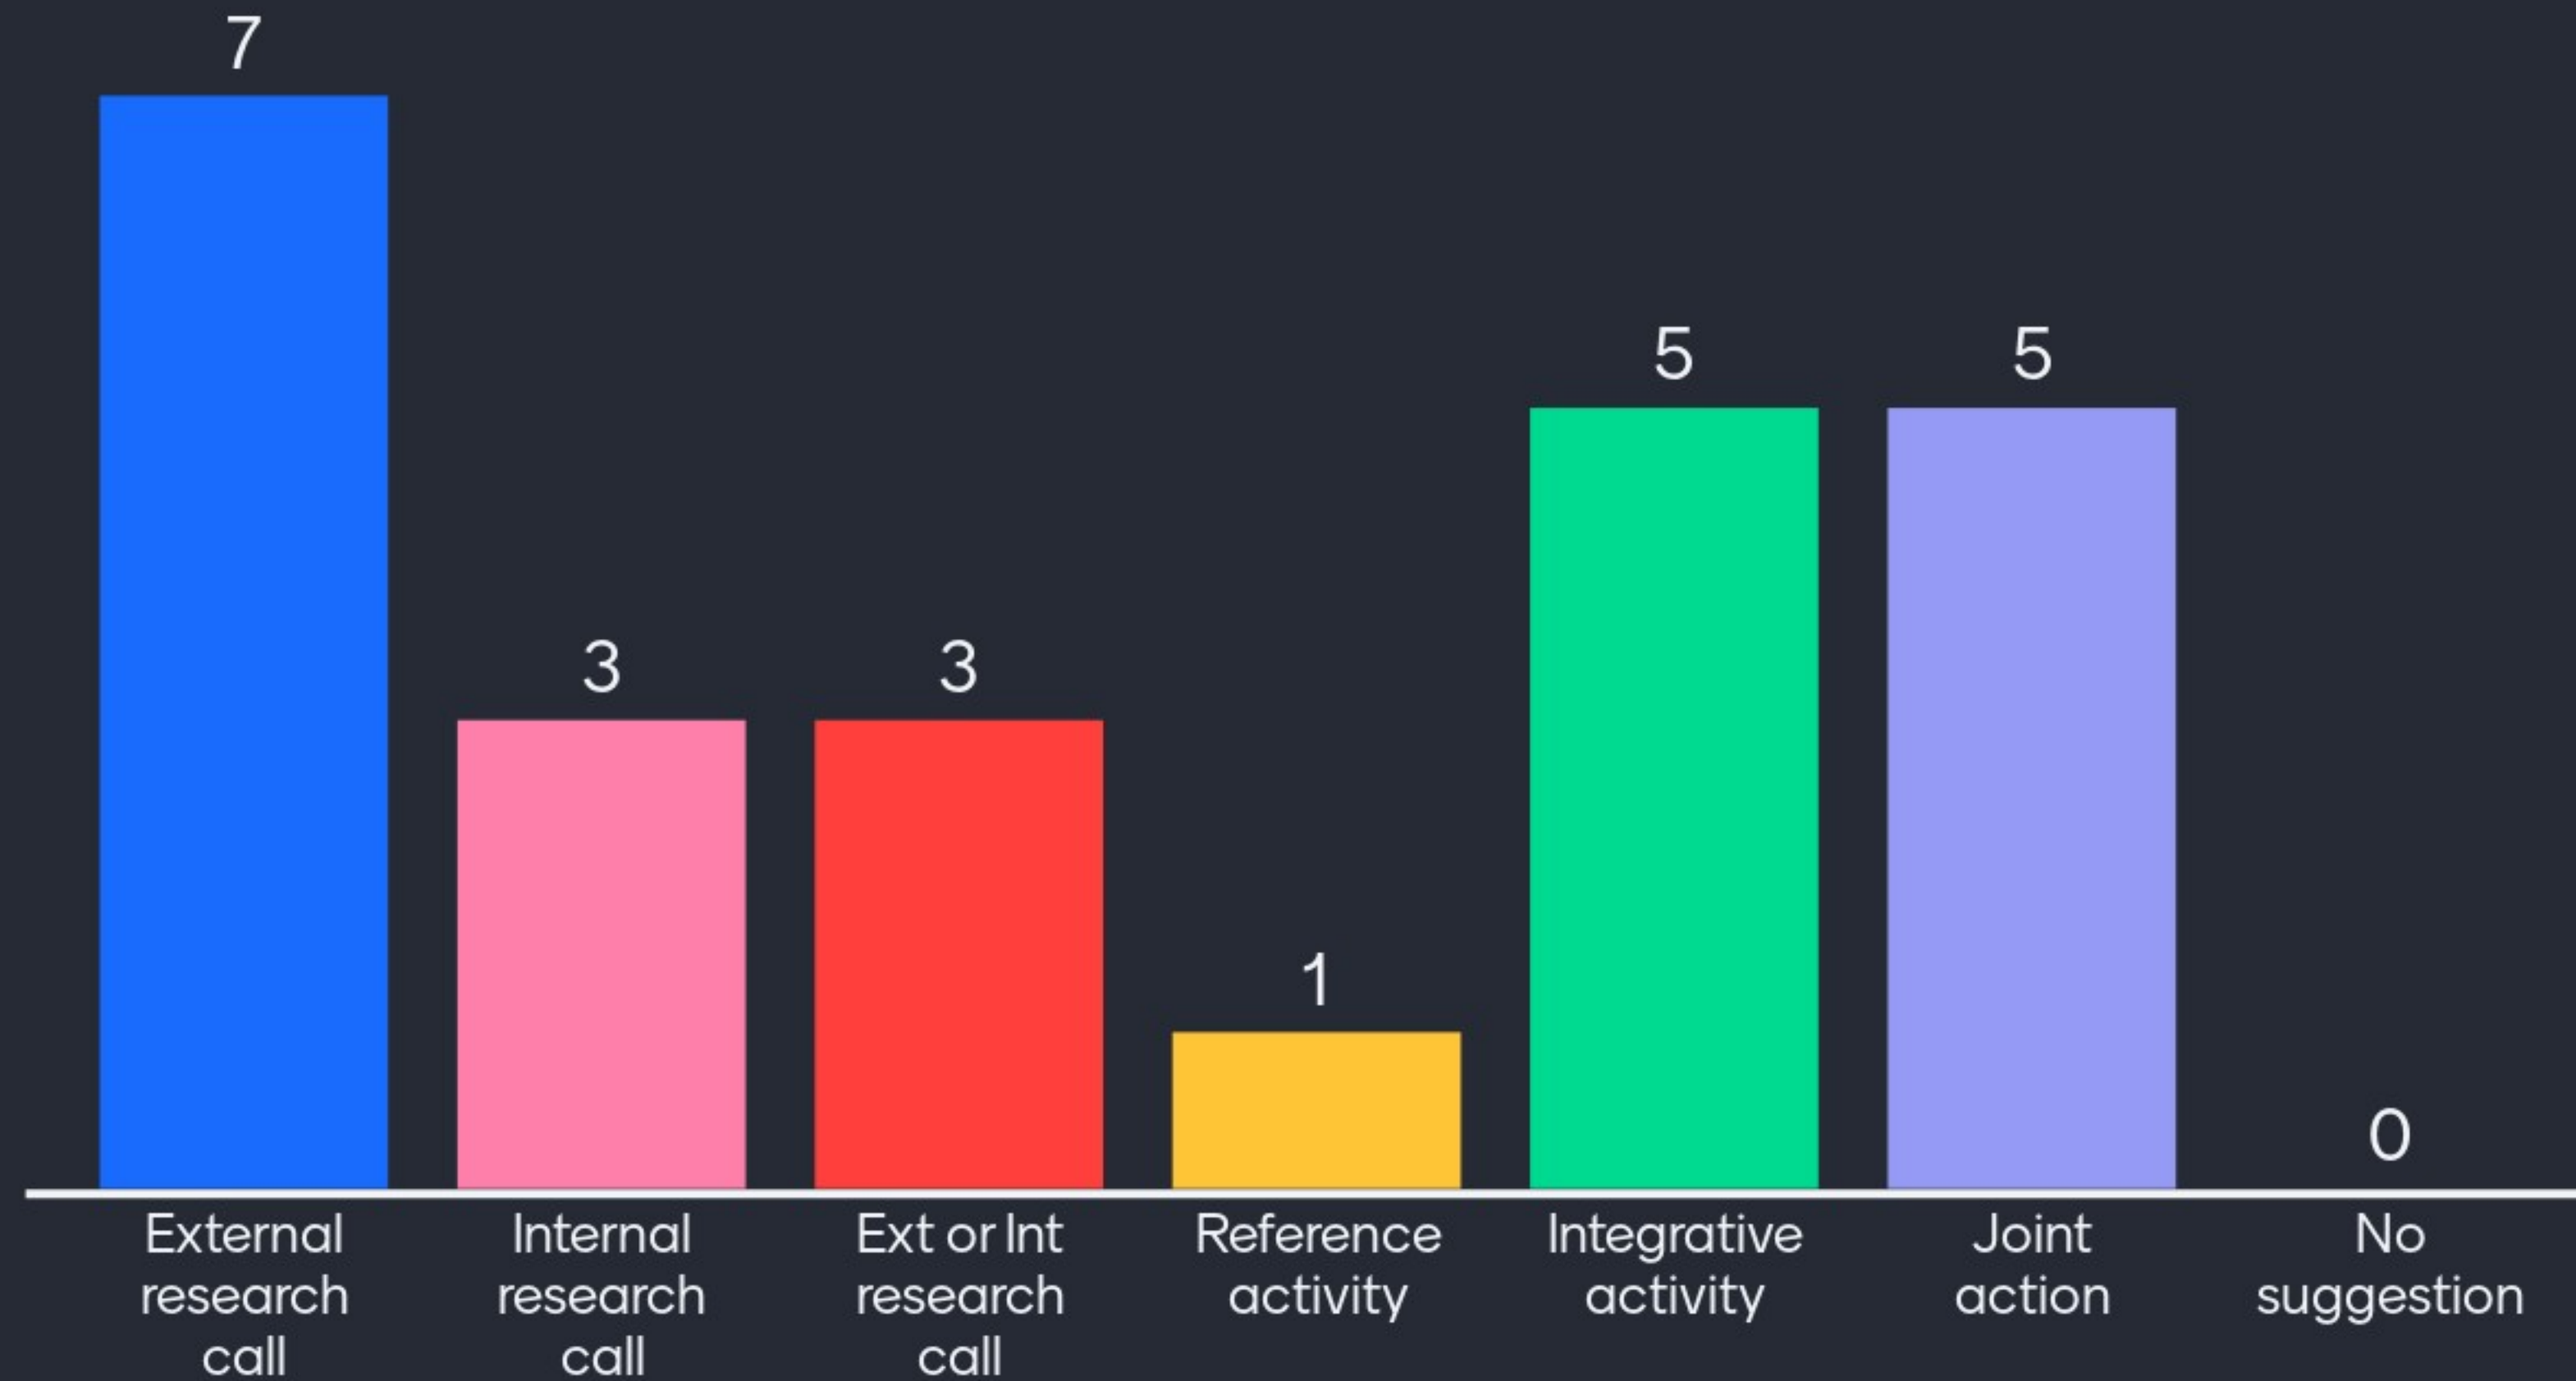

Global preparedness to EID (emerging inf dis)

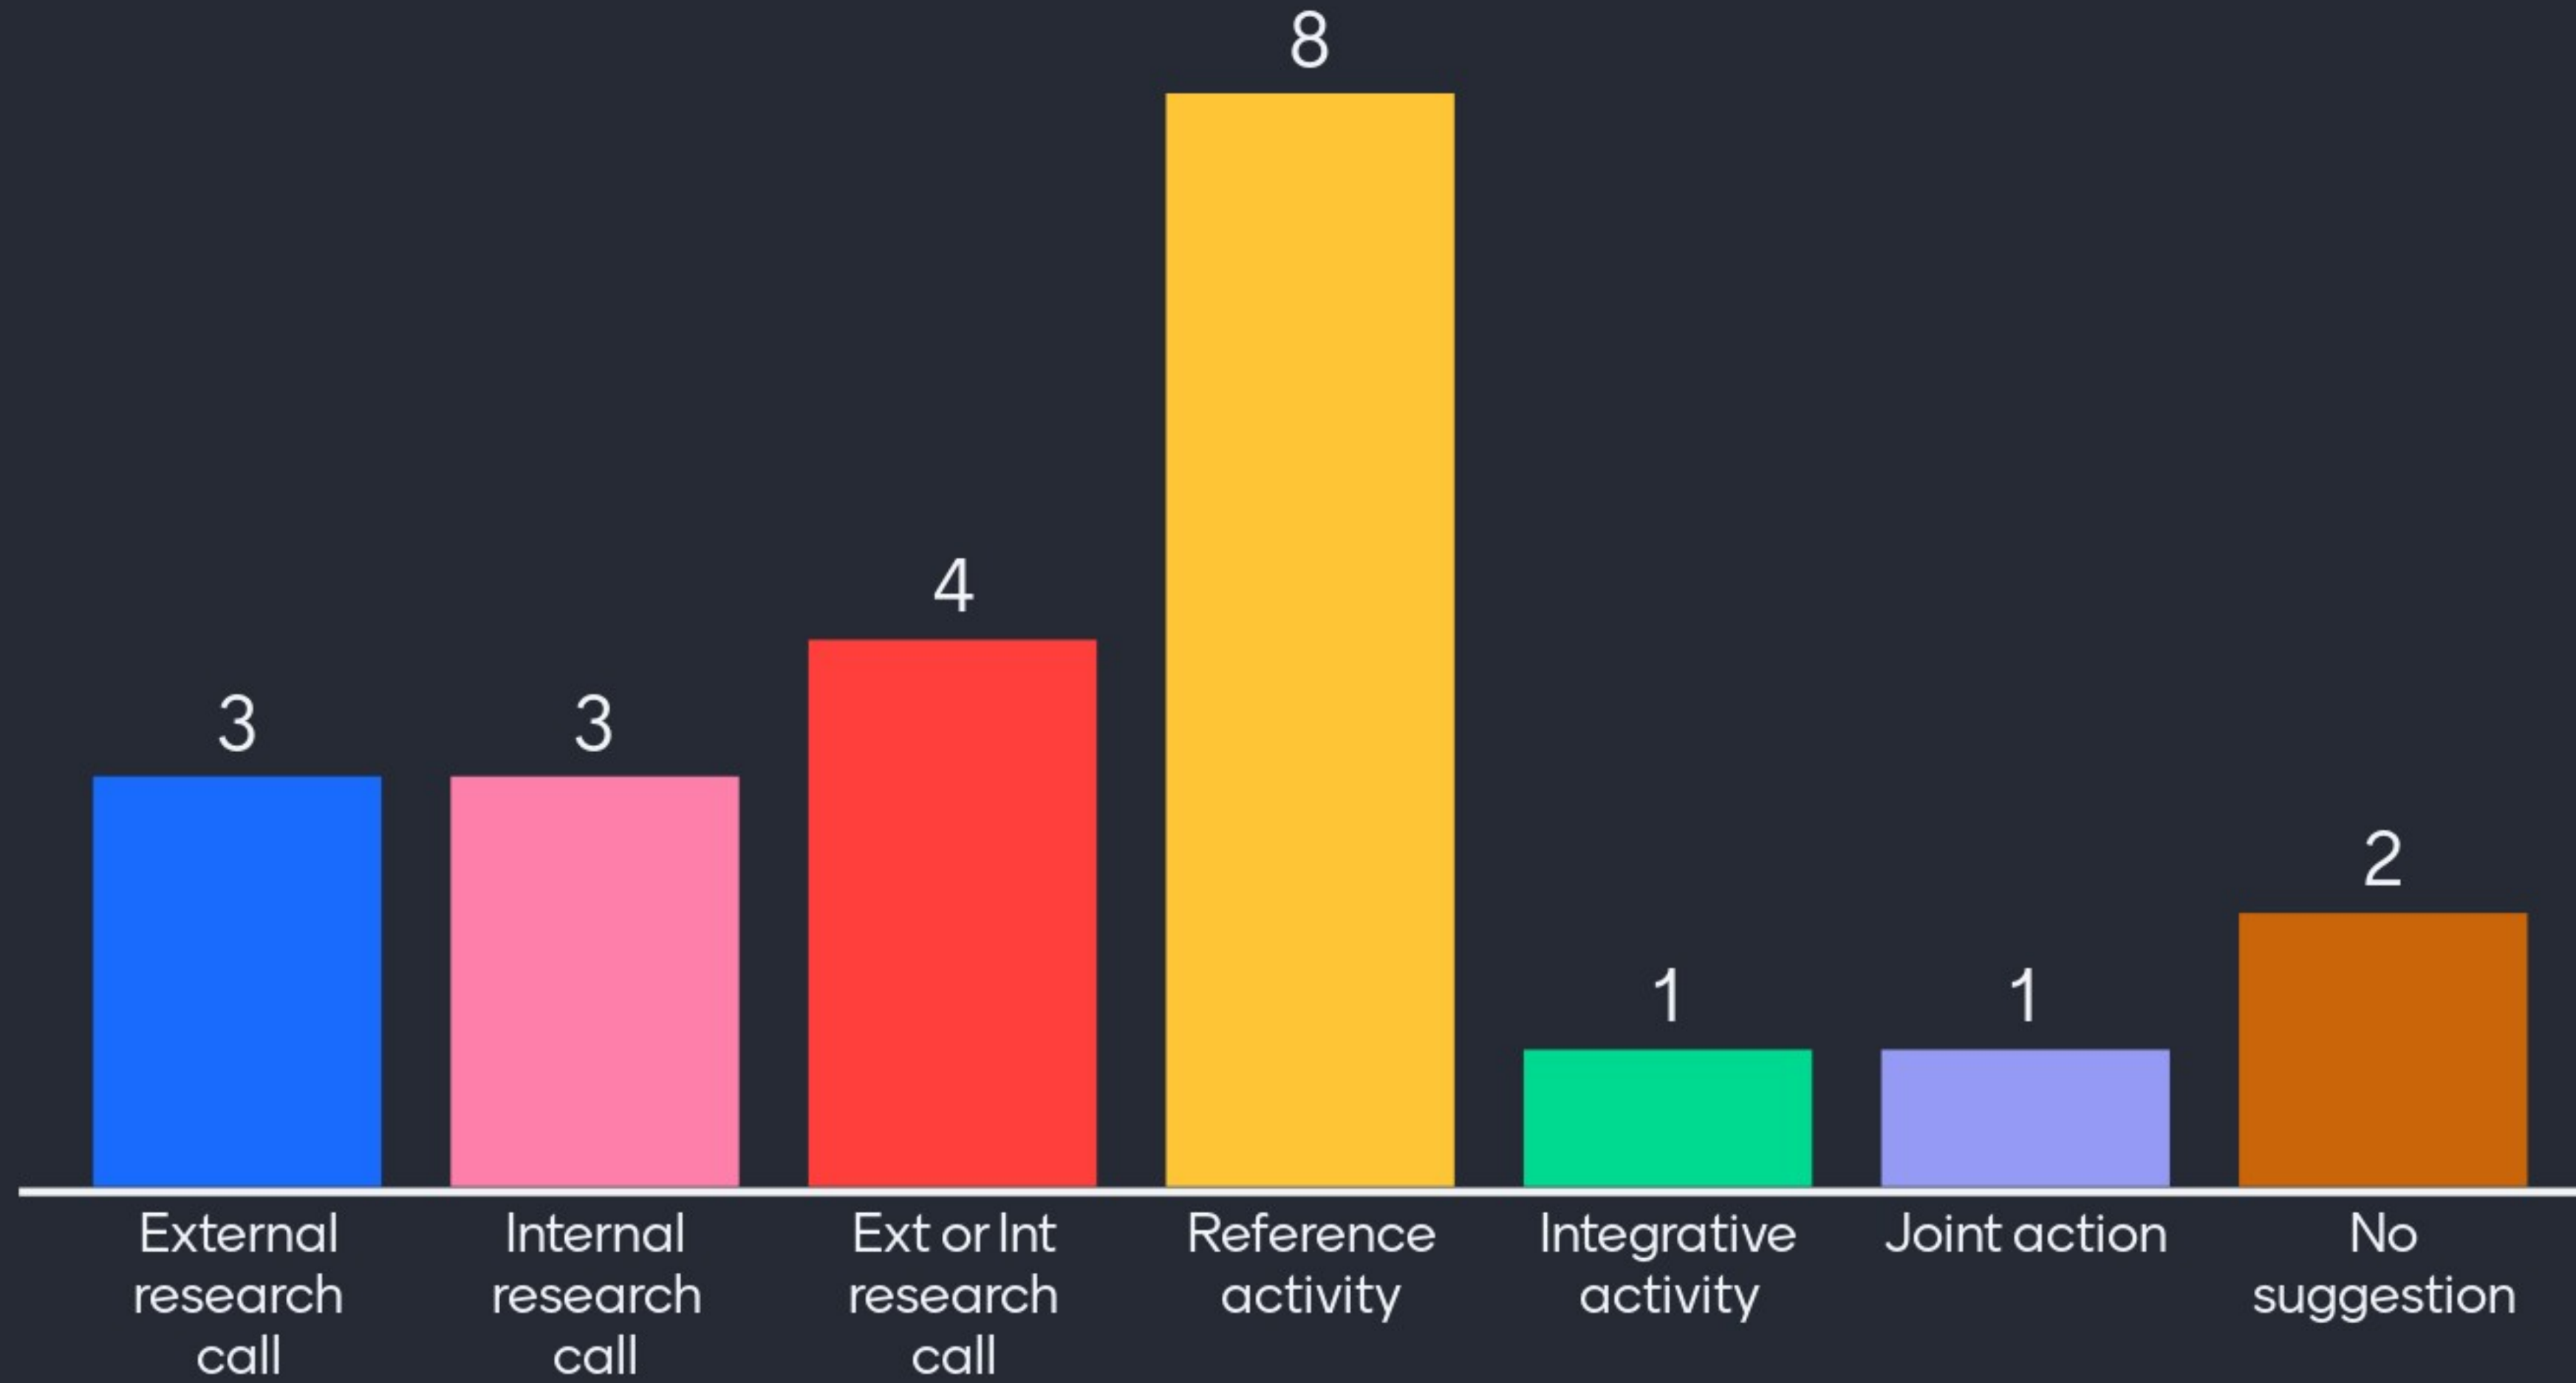

Wildlife watch (pathogen detections) for early warning

Integrated big data (genomic, clinical and epidemiological data)

AMR surveillance for veterinary pathogens

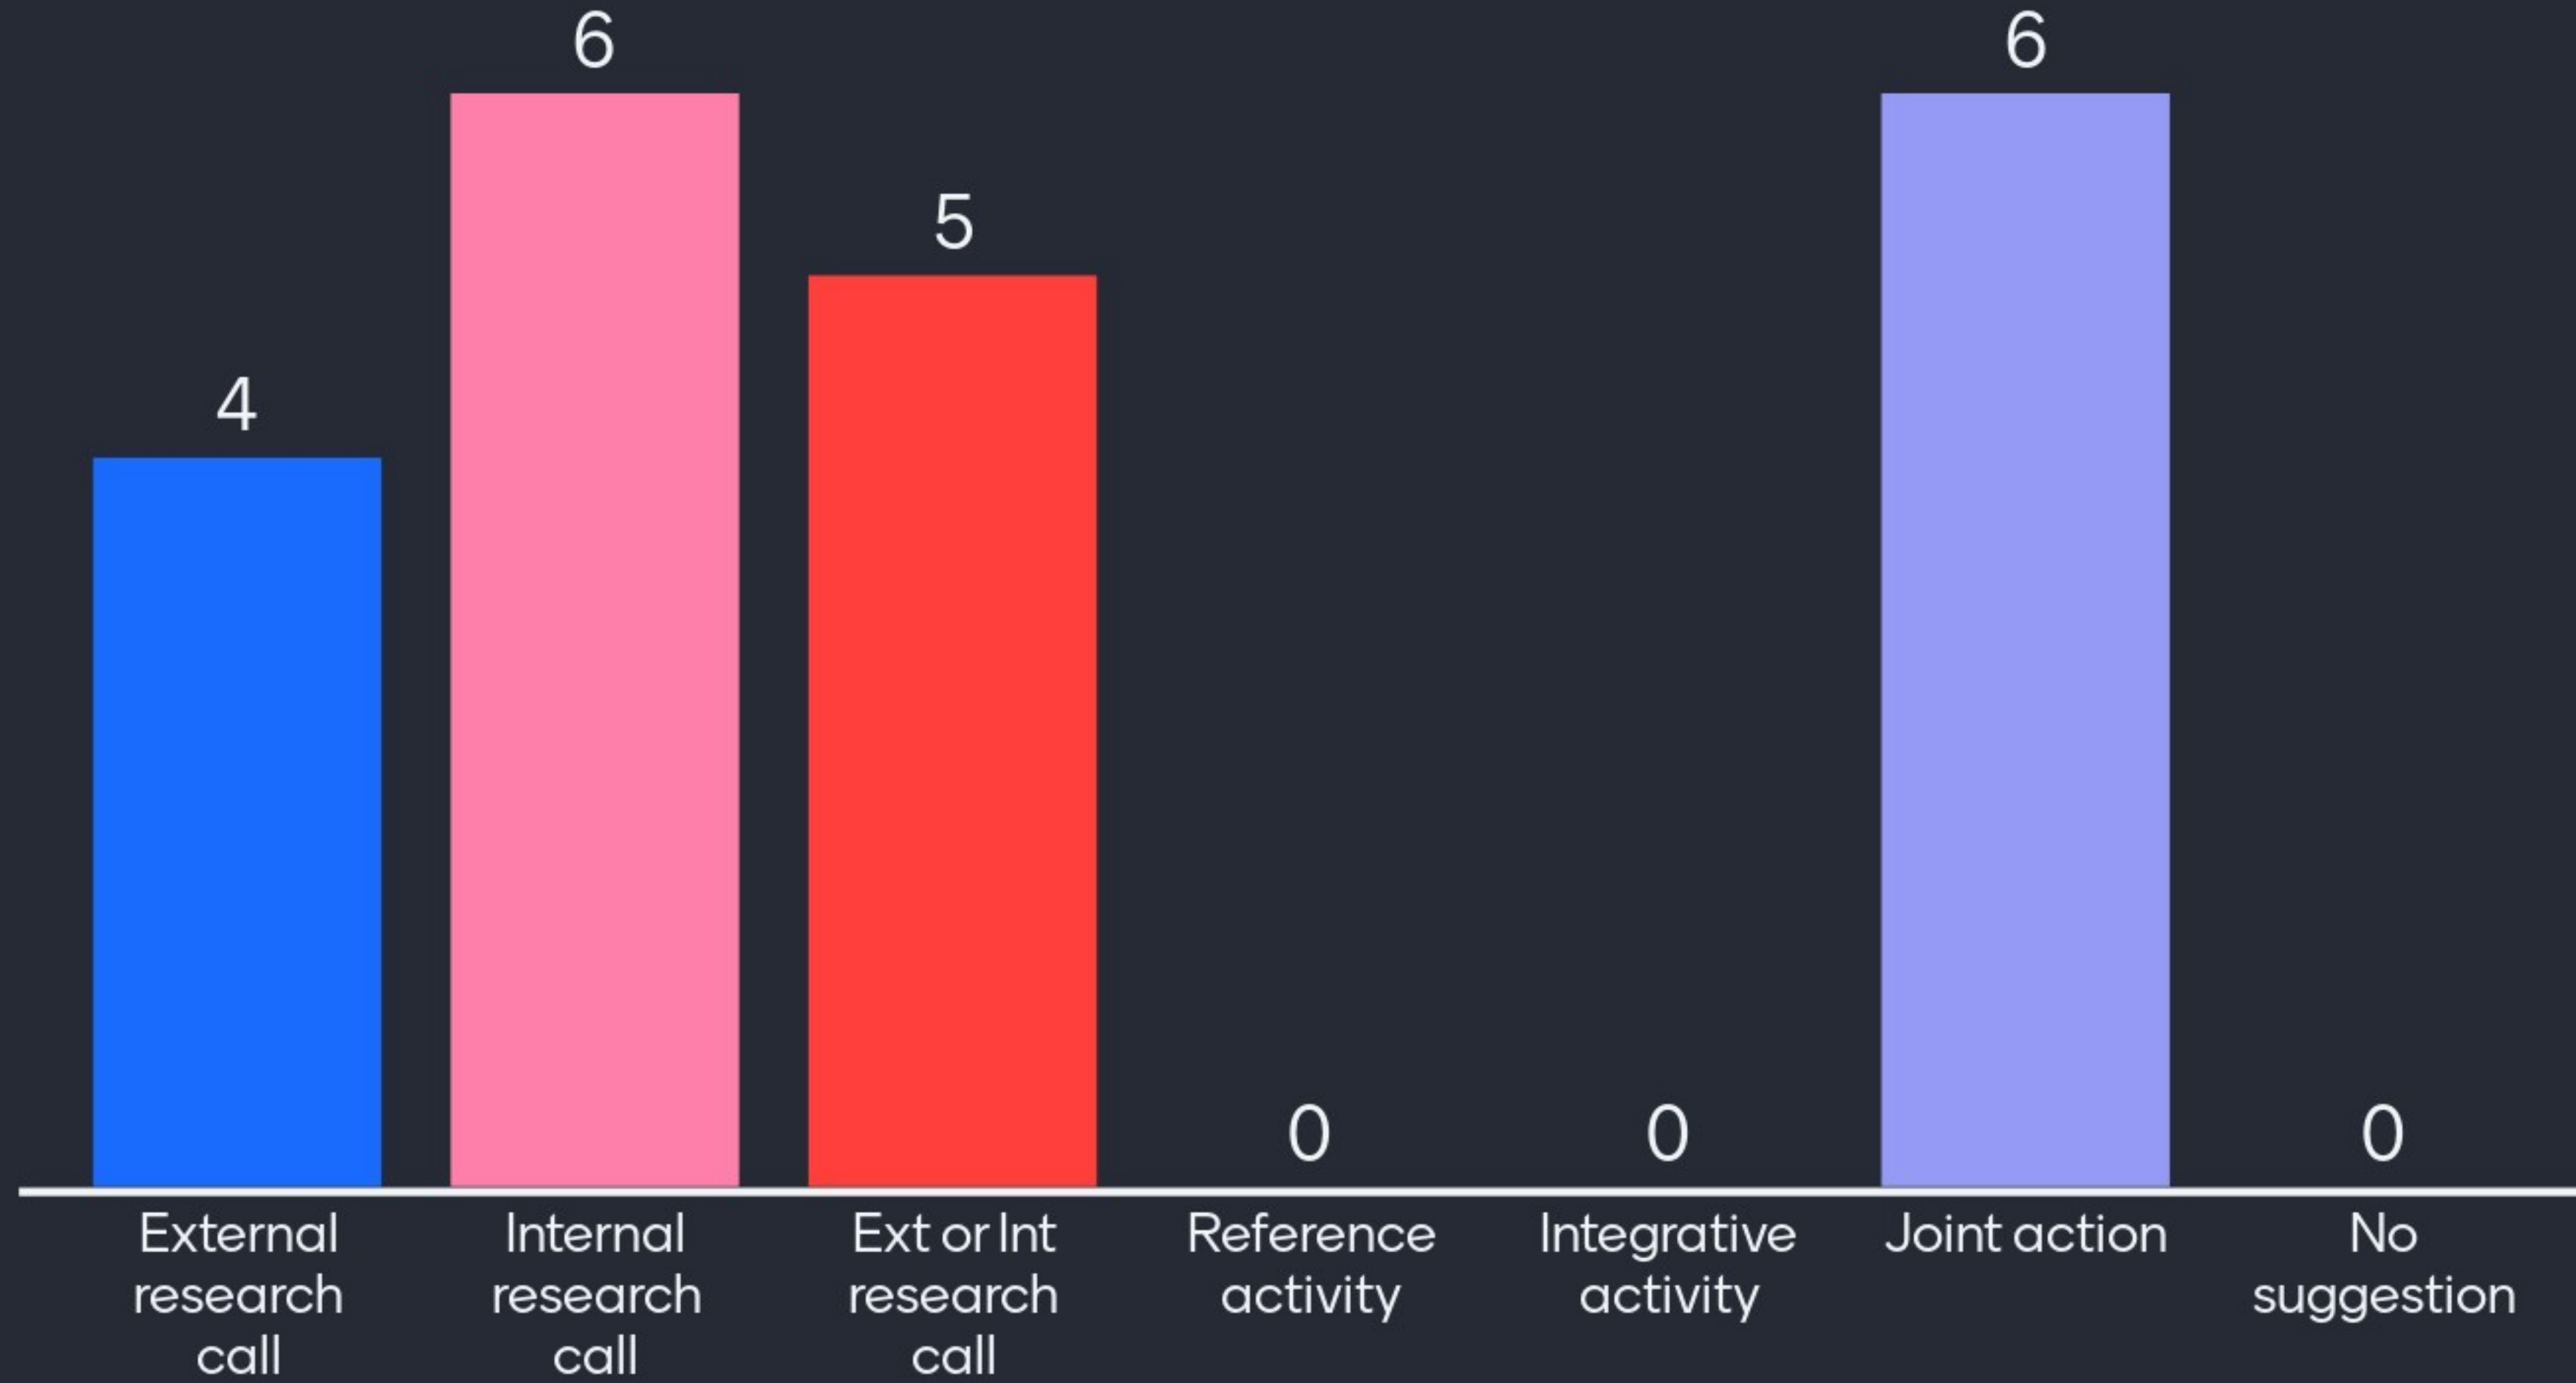

Progress prediction models for EID

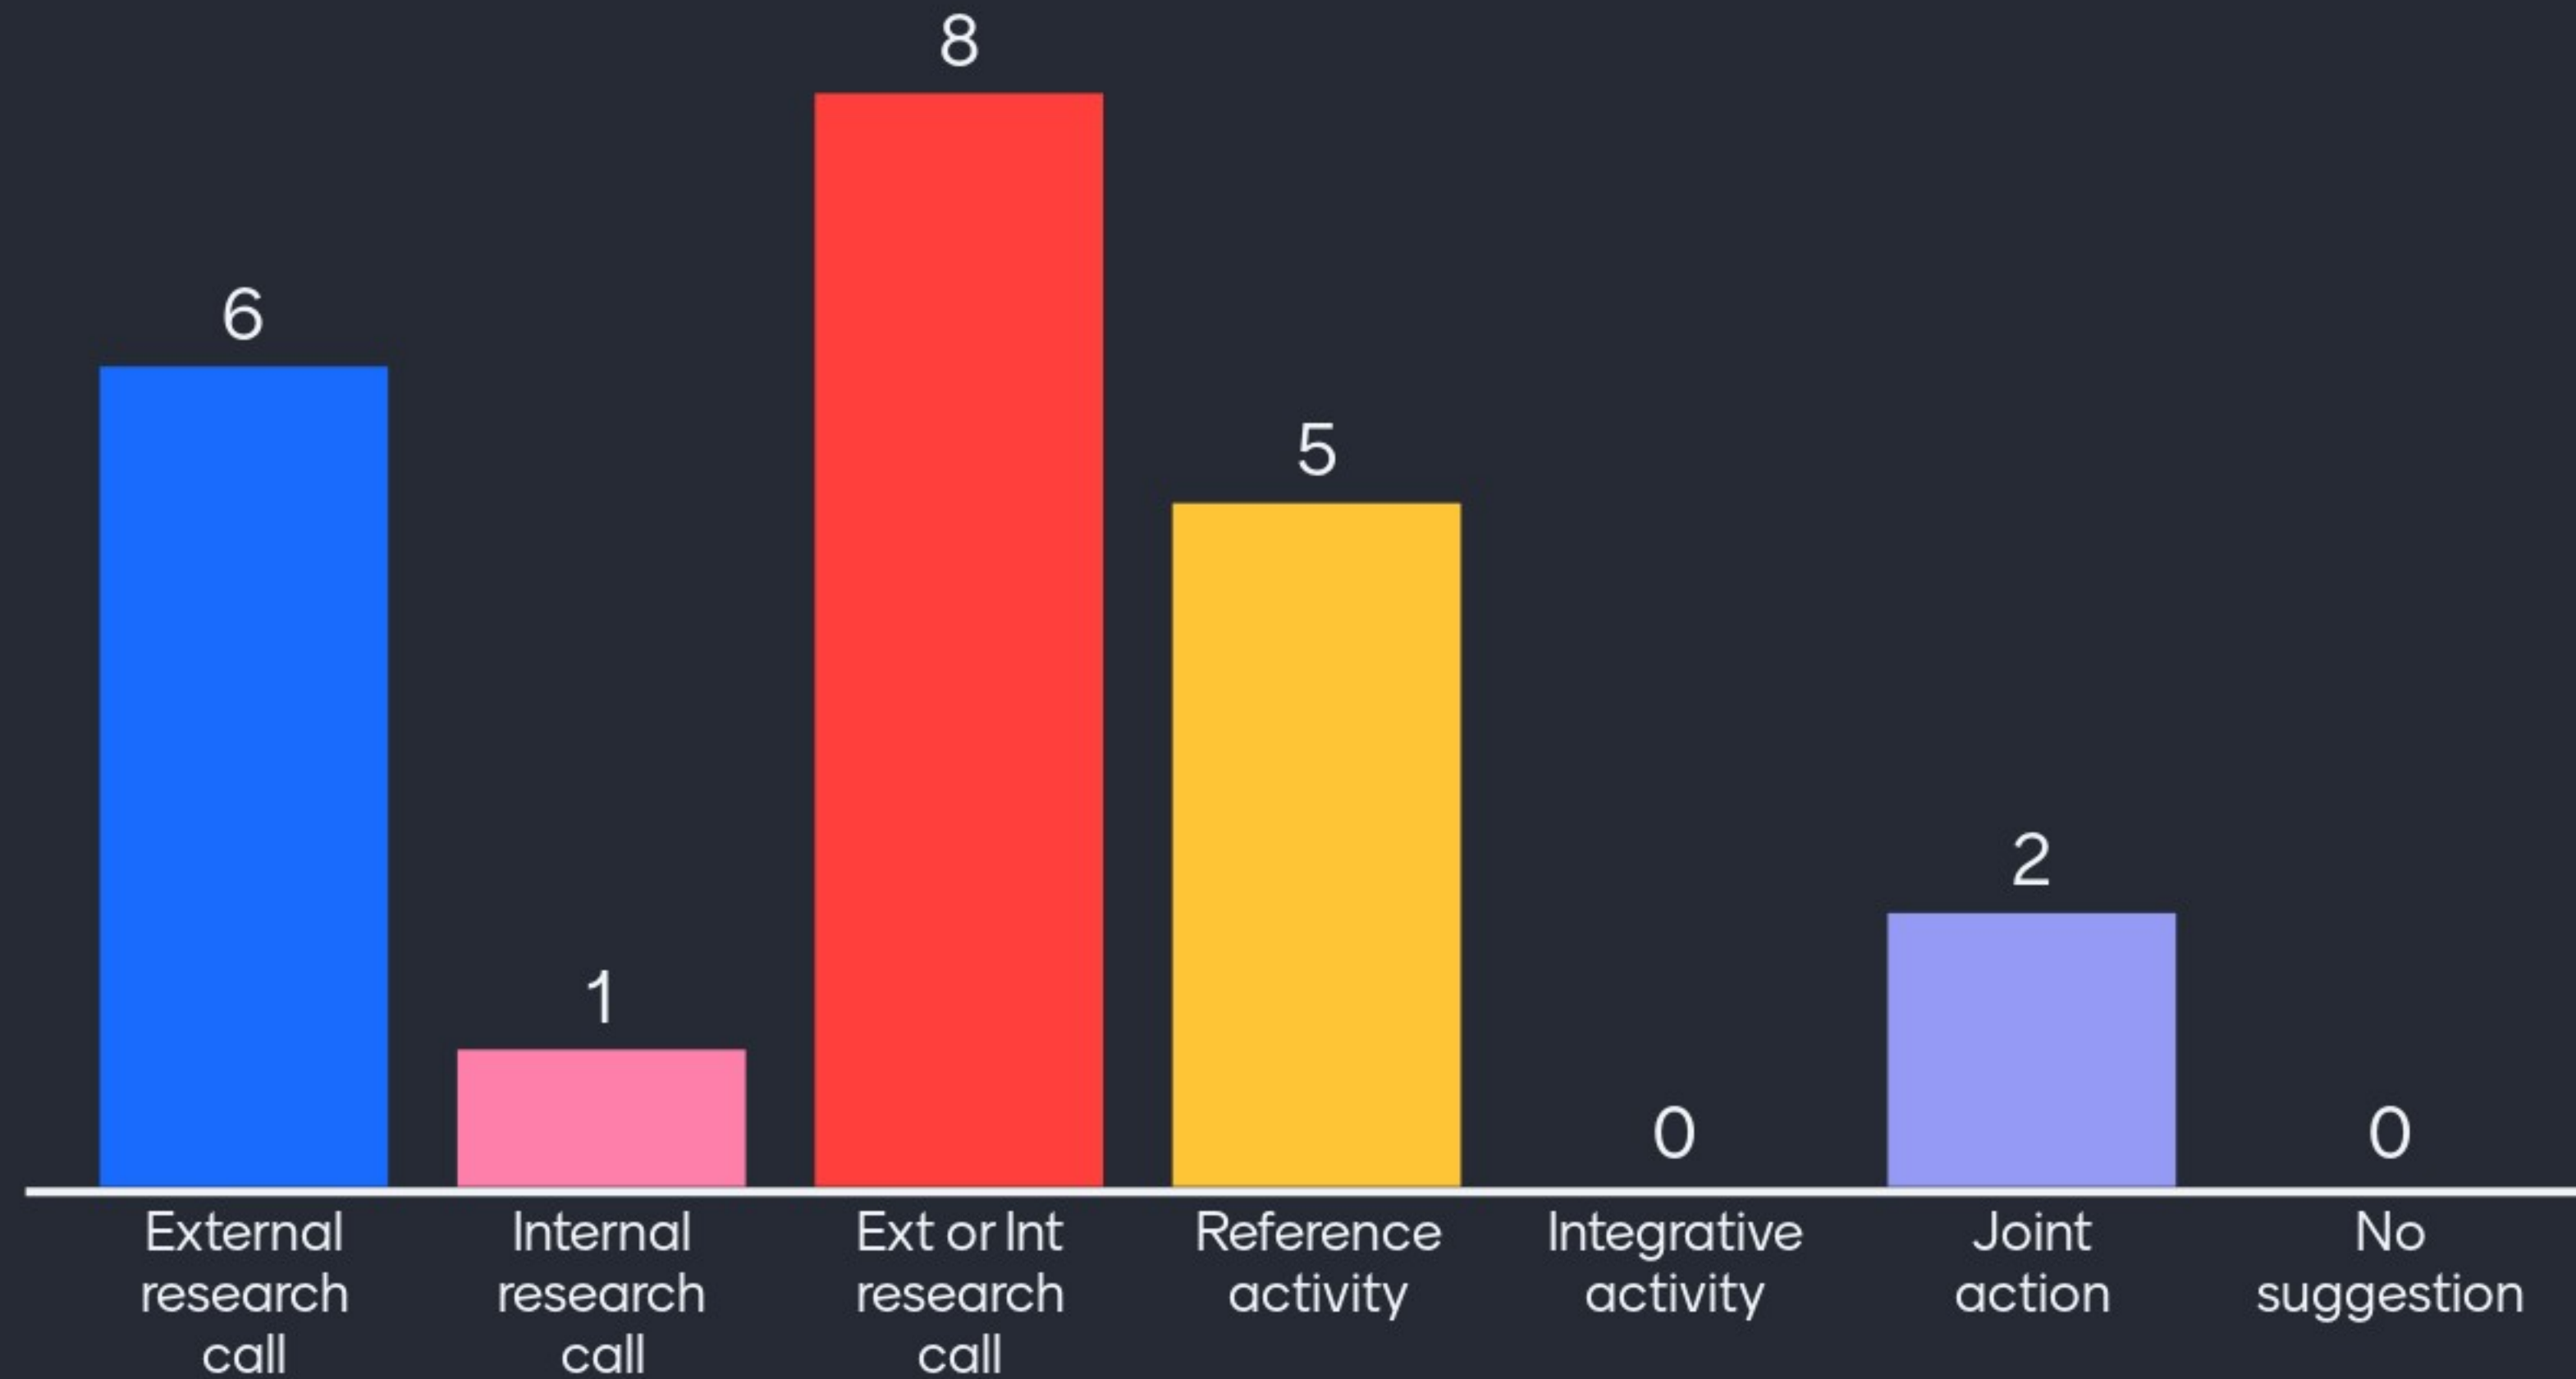

0	0	0	0	0	0	0
External research call	Internal research call	Ext or Int research call	Reference activity	Integrative activity	Joint action	No suggestion

Understanding host-pathogen interactions

Development of diagn. tools in both vectors and animal hosts

High-throughput technologies in diagnostics

Field diagnostics

0	0	0	0	0	0	0
