**COLLABORATIVE
WORKING GROUP ON
SUSTAINABLE ANIMAL PRODUCTION**

SCAR
Standing Committee
on Agricultural Research

EUROPEAN UNION

Project co-funded by
H2020 Programme under
Grant Agreement n° 727486

Definition

Sustainable Animal Production is “economically viable, socially acceptable, with minimal impact on the environment”

... in line with UN sustainability goals

...built on the **sustainability triangle** which
outbalances economic – social –
environmental challenges

...requires **systems thinking** which sees animal production as a complex set of interdependent system components

Mission

CWG-SAP provides advice on the coordination of research and innovation for the development of more sustainable animal production systems in Europe to Member States, Associated Countries and to the European Commission.

ERA-NET SUSAN

EUROPEAN RESEARCH AREA ON
SUSTAINABLE ANIMAL PRODUCTION

homepage: <https://era-susan.eu>

Objectives and expected outcomes

- To facilitate and stimulate collaboration and networking;
- To build an evidence-based shared perspective and common vision;
- A study on past “Drivers of change in the livestock sector”;
- A reflection paper on future scenarios;
- Strategic sector policy briefs;
- Recommendations for prioritisation of and support investment in research and innovation;
- Translation of identified challenges into operational instruments;
- Optimising resource investment by avoiding overlaps with past and current, national and international initiatives;
- Input for SCAR Foresight and Horizon Europe.
