

# SCAR

Standing Committee  
on Agricultural Research

FISH  Fisheries and  
Aquaculture Research

## MISSION AND AIMS

To contribute to the development of EU Marine and Fisheries related research and innovation policy under the Common Fisheries Policy (CFP) by Better Coordination between MS and Commission on research and innovation for Fisheries & Aquaculture:

- Cost Effective Research Effort;
- Economies of Scale;
- Avoid Duplication;
- Improve Efficiency;
- Share Results;
- Joint Funding;
- Linking Existing Work.

## MAIN ACHIEVEMENTS

- Valorisation of underutilised material  
Research recommendations on the valorisation of under-used material in fisheries and aquaculture.
- Mapping  
Mapping of fisheries organizations that are relevant for fisheries management and aquaculture development.
- Fish welfare research - Gap Analysis  
Investigate research gaps, define research priorities and reach agreement on these among a broad range of stakeholders, including farmers, the industry and researchers.

## CURRENT ACTIVITIES

- Freshwater aquaculture  
Collection and prioritization of the research needs of the freshwater aquaculture sector.
- Disease prevention in farmed fish  
New developments and research needs  
collaborative effort between SWG SCARFISH and CWG Animal Health.
